

MBK621A

Mounting bracket for ARCH10

Product information:

The MBK621A is a dedicated aluminum mounting bracket for the AUDAC ARCH10 subwoofer, designed for secure and discreet installation on walls or ceilings in indoor environments. The bracket features a durable black finish and comes complete with all necessary mounting hardware. Included rubber washers help minimize vibrations and protect mounting surfaces, while the drop safety wire provides an added layer of security against accidental falls.
