

## TR3030 Toroidal audio line transformer 30W 100V

## Product information:

The TR3xxx offers a range of line transformers with a power ranging from 30 Watt up to 480 Watt. There are different taps available for 50V, 70V and 100V lines and the low impedance side is selectable between 2 Ohm, 4 Ohm and 8 Ohm.

## System specifications:

| Peak power handling    | 60 W         |
|------------------------|--------------|
| Program power handling | 30 W         |
| Connectors             | 7.87 " cable |

## **Product Features:**

| Dimensions   | 3.15 x 1.97 x 3.15 " (W x H x D) |
|--------------|----------------------------------|
| Weight       | 2.094 lb                         |
| Construction | Copper                           |
