

TR3060 Toroidal audio line transformer 60W 100V

Product information:

The TR3xxx offers a range of line transformers with a power ranging from 30 Watt up to 480 Watt. There are different taps available for 50V, 70V and 100V lines, and the low impedance side is selectable between 2 Ohm, 4 Ohm and 8 Ohm.

System specifications:

| Peak power handling | 120 W |
|------------------------|--------------|
| Program power handling | 60 W |
| Connectors | 7.87 " cable |

Product Features:

| Dimensions | 3.35 x 2.36 x 3.35 " (W x H x D) |
|--------------|----------------------------------|
| Weight | 2.80 lb |
| Construction | Copper |
